Learning about our community - Grade 1-2 Nicholls

Students in Ms. Nicholls' class are learning about the community and why certain buildings are important. Students would then identify what the building is and then write why this building is important.

Examples:

The high school is an important building in MacGregor because kids write words.

By: Bailey

The hairdresser for pets is an important building in MacGregor

because it is for getting your pets clean.

Waiting is NOT easy. 1-2 Donald Class

On Christmas morning I have to wait for my presents! I have to wait until everybody is awake, had breakfast and brushed our teeth. Then we can open presents! **By: Makenzie Kehler**

Once me and my brother were running around our dads truck and then boom my forehead hit his truck box!! My forehead was bleeding bad! So we had to go to the hospital to get stitches. I had to wait for a long time to go to the hospital and then I had to wait at the hospital to get my stitches .

Waiting is not easy! One night we went to the barn to make sausage and I was not patient that I had barely any jobs and it was not easy to wait. Then I almost got my hands stuck but my sister got it out. **By: Brandy Toews**

A WALK IN THE PARK - By: Lindsey Hiebert

I was walking down the sidewalk with my big, juicy, massive steak when all of a sudden the ground started to shake. One of the cracks in the sidewalk started to move. The ground was shaking harder and the crack got bigger. I heard loud noises so I went to check it out. Suddenly, it was really windy and a tornado appeared and pushed me in, I fell. I landed in a fresh, steaming pile of poop the size of my car!

I stood up and smelled the most unpleasant smell I could ever imagine. I took a few steps forward and fell into a river.

I started to wash the poop off of my clothes, but then smelled the most rich flower ever. I walked to it. It Smelled even more awesome than I thought. I started to bend down to pick it when, 'BOOM', something stepped on it! I looked to see what it was, but it was suddenly gone!

I began to hear something but I did not know what it was. I got up and followed the noise to see what it was. The sound got louder. I got it trapped and turned away, but it was gone.

I tried to see if I could hear it, but there was nothing.

I started to walk and I tripped over a log, or I thought it was a log. It felt smooth. It kind of felt like an animal's tail but it probably was not. I got up and I started to walk back to the river. I noticed that my steak was gone! I felt around some more but I still could not find it.

I began to walk along the river and came to a cave; it was a big one! I went inside and I started to taste something- it was blood. I walked farther into the cave and I tasted a hot, steaming wind in my face. It felt like it was spitting but it does not rain in a cave so I knew it was not. I looked up and realized that the cave was not a cave, it was a T-REX mouth!

The t-rex had awoken. I quickly jumped out before I was gone. I jumped out just in time!

I went to the T-rex's tail and I jumped. The t-rex smacked me and I flew up into a hole in the sky. I was suddenly on the sidewalk again. So I decided to go to the store and I bought a big, juicy, massive steak and went home. As soon as I walked in the door my mom said, "How was your walk in the park?"

"Well, I've never had a T-rex steak before, but I know where we could get some!" I said.
